SKILLS

Test Automation & QA
Behave BDD, Cucumber/Gherkin, Selenium, Playwright, Jira, Confluence, Zephyr

Programming & Scripting
Python, C, MATLAB, C++, SQL

Tools & Version Control
Git, GitLab CI/CD, DOORS

Systems & Monitoring
Kibana, OpenSearch

LANGUAGES

English — fluent
German — intermediate
Hungarian — native

ACHIEVEMENTS

First Hungarian to thru-hike the 4273 km long Pacific Crest Trail southbound (130 days, 2023), and the 800 km long Pyrenean Haute Route (40 days, 2021)

SCHOLARSHIPS

New National Excellence (2018, 2019), Young Talent (2017), PhD Excellence (2016), Central Fund (2015), 1st place – Student Sci. Conf. (2014, 2015)

Dr. Ákos Makra

Test Automation Engineer · PhD in Information Science

WORK EXPERIENCE

Test Automation Engineer

Jul 2024 – Present

Magyar Telekom Nyrt.

- Designed, developed, and maintained system and E2E tests, combining business requirements, acceptance criteria, and testing-pyramid principles.
- Identified, documented, and tracked defects using log-based root-cause analysis.
- Mentored QA teams transitioning from manual to automated testing, as well as junior and newly onboarded colleagues. Interviewed and evaluated candidates for open Test Automation Engineer positions.
- Played a key role in raising automated regression system and E2E test suite success rates from under 65% to a consistent 95%+ across multiple major projects, while reducing the number of manually executed regression test cases by 30%.

Software Tester

Nov 2021 – Jun 2023

Effective Group Talent Solutions Kft. — B. Braun project

- Developed automated unit and integration tests for safety-critical software running on acute dialysis machines.

Researcher

May 2019 – Sep 2019

MedRes Kft.

- Performed ultrasound simulations, device development and testing.

ERASMUS Research Internships

2014 – 2016

- Fraunhofer IBMT, Sankt Ingbert, Germany (2016, 2 mo.) — examined biological tissues using scanning acoustic microscopy.
- University of Florence (MSDLAB), Italy (2015, 2 mo.) — developed real-time imaging and feature extraction for an ultrasound device.
- Philips, Eindhoven, Netherlands (2014, 3 mo.) — performed surgical biomedical signal analysis and processing.

EDUCATION

PhD, Information Science

2015 – 2020

Roska Tamás Doctoral School of Sciences and Technology
Ultrasound Image Modelling and Resolution Enhancement

MSc, Info-Bionics Engineering

2014 – 2015

Pázmány Péter Catholic University

BSc, Molecular Bionics Engineering

2011 – 2014

Pázmány Péter Catholic University
